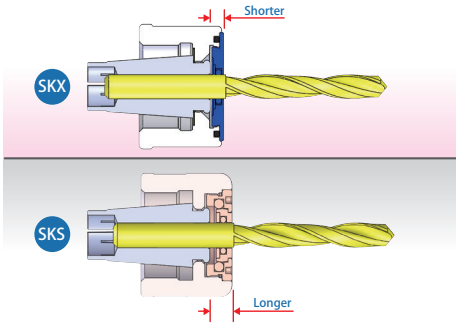
SKX COLLET CHUCK SYSTEM

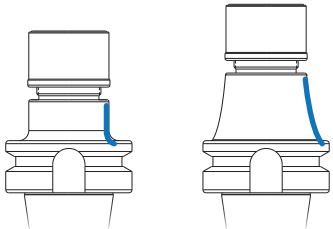
- SKX sealed nuts and sealed caps are capable of coolant pressure up to 70 bar.

- Compared to other brand, shorter distance between sealed cap, sealed nut and collets allows shorter tool overhanging length.



- Special SKX sealed cap holes avoid the problem of slipping when fastening.

- Besides the standard design of straight neck, SKX tool holders with length over 120mm also have curved line design for better rigidity and less vibration.



- SKX tool holders and collets are exchangeable with other brands.

- The OD of SKX nut is the same with other brand, so it's workable with other brand spanners.
