HBL SYSTEM

→ HBL COLLET CHUCK + HLB COLLET TYPE CUTTING TOOLS

Double face design improves rigidity.

4° slanted design raises the clamping power.

Advantages of HBL system:

- Reduce the stock of tool holders and cutting tools.
- Applicable for all kinds of processing, eg. face milling, slot milling, shoulder milling, contour machining, chamfering, boring.
- Convenient for usage. It's easy to change the collet type cutting tools in a few seconds!
